

Trench Rack / Duct Bank – Call for pricing

Data Center Trench Rack Design

Standard Rebar Trench Rack Design

MJC Sales & Marketing Inc. 12177 Business Park Dr. Ste2, PBM 300. Truckee, CA 96161 (925) 575-4019

Standard Rebar Trench Rack Design

Call for pricing and availability

- Fabricated to the exact number of conduit opens for your particular project
- Uses 5/8" diameter rebar stakes to set inside the trench
- Allows concrete to flow easily from rack to rack
- Prevents concrete damming issues during the pour
- Most economic solution

MJC Sales & Marketing Inc. 12177 Business Park Dr. Ste2, PBM 300. Truckee, CA 96161 (925) 575-4019

Data Center Trench Rack Design

Call for pricing and availability

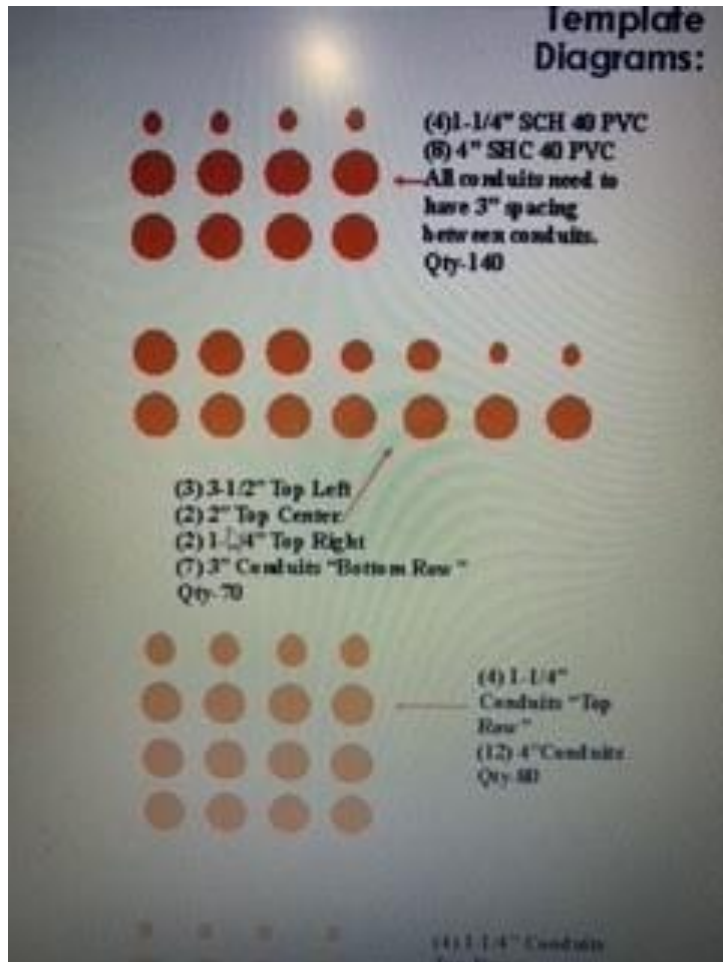

- Uses a Roller System built into each conduit opening
- Conduit Puller quickly pulls each conduit run from rack to rack
- Saves 4X in time to install vs. standard trench rack design
- Eliminates having to snap together each trench rack on the jobsite
- Maintains all the advantages provided by the Standard Rebar design

MJC Sales & Marketing Inc. 12177 Business Park Dr. Ste2, PBM 300. Truckee, CA 96161 (925) 575-4019

Trench Rack / Duct Bank Quotation Request Sheet

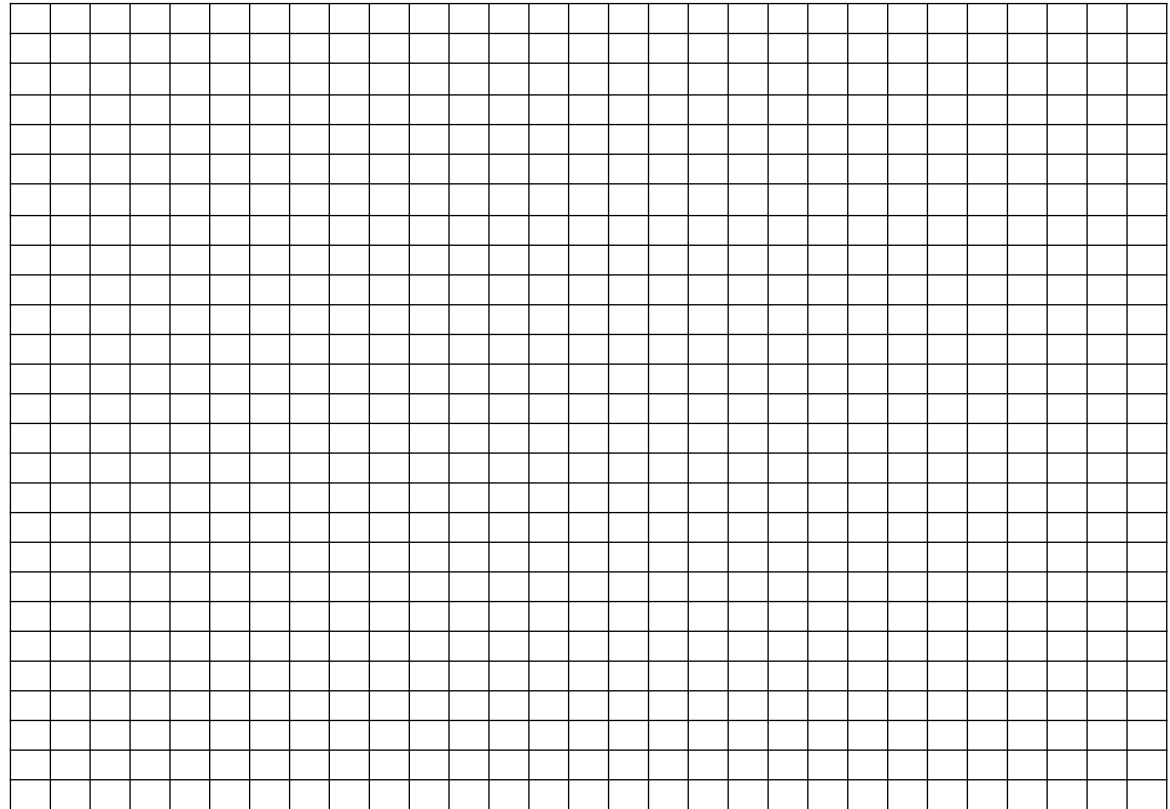

How to start a quotation request

- Fill out quote Template Layout Sheet
 - Standard or Data Center Design?
 - Is the Conduit in 10ft sections or being pulled by a conduit puller coming off a coil?
- Determine the Conduit Layout
 - Number of Conduit Pipes?
 - What are the Diameters?
 - What is the spacing between conduit pipes?
 - Fill out Trench Rack Worksheet with your conduit configuration

TRENCH RACK WORKSHEET

YOU DRAW IT, WE'LL MAKE IT!
